Abstract (on a separate sheet)

We have not re-submitted any "Drawing Amendments" since we understand the drawing changes are acceptable and, further, in view of the last

sentence in the six line paragraph beginning “2. Applicant is given ...” on page 2 of the March 16, 2010 Office Action.

The “Claim Amendments” portion of this Amendment have been prepared by following closely the Examiner’s clear and detailed comments on pages 4, 5 and 6 of the March 16, 2010 Office Action. Her provision of a suggested wording is especially appreciated and has been followed en toto.

Lastly we do respectfully request that the Examiner take note of the ‘SPELLING CORRECTION OF APPLICANT’S NAME” paper filed in the 8 September, 2009 amendment document, and do what she can to correct this typographical error which is quite important to the applicant, and crucially important to the maintenance of accurate Patent Office records.

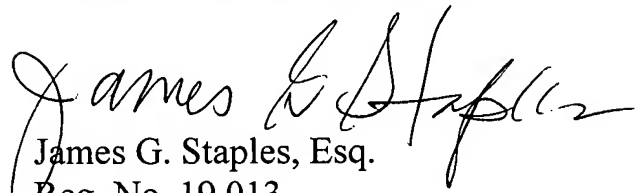

We respectfully submit that all outstanding objections have been attended to and the application is in allowable condition. Formal action to that effect is requested.

In the event however that we have overlooked or misapprehended any matter, the Examiner is requested to telephone us at the below listed number so the matter can be promptly rectified. If the undersigned does not answer, please

leave a voice mail message and the matter will be promptly dealt with.

Respectfully submitted,
